**TOUGH WORKOUT** — Bishop Kelly Senior, Julie Harrington is working out on the new Kangaroo leaper, a machine designed to tone the leg muscles and develop speed.

★ ★ ★

## What Do These Girls Have In Common

This year's Student Council is different from any year at Bishop Kelly because its five student body officers are all female. Student Body President, Carol Wolters, senior says, "The fact that it's all girls doesn't make any difference. It's just the quality and efficiency of all the officers." Wolters is the second female to hold the office of Student Body President at BK.

Some of the goals Student Council has set for this school year, 1980-81, are, "to fill the needs of the students; to encourage mass because that's one of the qualities of

Bishop Kelly that makes it different than the other high schools; to show leadership qualities for others to follow; to improve the physical appearance of the school and replace the necessary facilities to insure the safety of the students," according to Carol Wolters.

"The Student Council has already purchased new crash pads for the gym wall. This was done primarily to replace the old worn ones, to insure safety to the players, and also to help the appearance of the gym.

"Student Council has a great deal planned this year and will strive in

## BK Greet New Teachers

Bishop Kelly has started the 1980-81 school year with four new additions to the faculty staff.

Mr. Antonio Boluna, replacing Sr. Benita as Spanish teacher, is from Spain. He was born in Barcelona and has done most of his teaching in universities and colleges in the United States. He has taught in the Universities of Wisconsin and California and has taught at Venture and Santa Barbara city colleges. This is the first high school he has taught in. Aside from Spanish, Mr. Boluna enjoys jogging, swimming and tennis. He has been teaching Spanish for six years.

Mrs. Jane Wilson, who taught at BK for 1978-79 school year, has returned to teach art in place of Ms. Nichols. In her year's absence, she has found more time to work on her

water color paintings and clay sculptures, which she enjoys very much. She has taught art for four years and three of those years have been here at BK.

Mr. Jay Hart, government and speech teacher, is not only new to BK, but he has just received his master's degree at Penn. State University, and this is his first year teaching. As a hobby, he likes collecting wine labels.

Mr. Steve Barker, one of the assistant coaches for the football team, has come to BK after five years of teaching at Borah. He likes to golf and snow ski. He teaches world history and P.E.

The teachers seem to have adjusted to school procedures and may continue to teach at BK for the years to come.

## Kangaroo Jumper Joins Bishop Kelly Athletic Department

More than \$2000 worth of athletic equipment was purchased this year, according to Athletic Director Mike Fritz. Most of it was paid for by donations and clubs at Bishop Kelly.

Perhaps the most exciting addition to Kelly's training apparatus is the kangaroo jumper. It was paid for by the Lettermen's Club and G.A.A. and cost \$800. A versatile piece of equipment, this machine develops leg strength and speed. It can be used by athletes in every sport but, as its name implies, it is most useful to those in sports where jumping is important such as basketball and

volleyball. Daily workouts on the jumper for two or three months can increase jumping ability to seven to nine inches. In some cases improvements of up to one foot have been reported.

A \$1000 donation by the Bishop Kelly Booster Club paid for new football helmets. These new football helmets were developed only a few years ago. They are much safer than the old style the federal government, in an effort to better protect high school athletes, has required that all high schools replace their old helmets with the new ones. The new helmets have a special seal which assures the players' safety.

Over the summer, the weight room was improved. It cost no money because janitor Roger Aguirre, with a little help, did the work. It has been moved to the old equipment room and coaches' room in the boys' locker room. There is more space now and the weights are arranged in stations. The effectiveness of the weights should be greatly increased by the new arrangement. The old weight room will be used for storage.

The girls' varsity volleyball team now has authentic volleyball uniforms, rather than borrowing those used for other sports as has been done in the past. Girls' junior varsity basketball also has new uniforms.

## Money Saved In Schools Renovation

Bishop Kelly has changed a great deal since last May. The walls are newly painted and many classrooms were renovated. This was done through the efforts of Roger Aguirre and Bob Jones, the school's maintenance engineers.

With the help of about fifteen students, Aguirre and Jones worked the entire summer improving and repairing our school. Their main project was repairing the school roof. They laid 40,000 square feet of tar roofing, which cost the school

\$16,000. However, they saved the school \$10,000 by doing the work themselves.

Some of the other projects that they accomplished include: painting three classrooms, along with the locker-rooms, the freshman lockers, the main hall, and the office. They also refinished the gym floor, put in new sinks and drains in the Biology and Chemistry lab rooms, and laid new tile in the art room.

Future plans call for repairs in the heating system and to paint the rest

of the lockers in the halls. They would also like to seal the Gym roof.

In the spring, Aguirre and Jones are planning to construct a softball field. They are also planning to grow and harvest an alfalfa field on the land beyond the baseball field.

"We are off to a good start," Roger said, "but it's the students' school and they should treat it as if it were their homes."

Aguirre and Jones worked an entire summer preparing our school for the new year.

# New Dean Enforces Positive Changes

Editor's Column  
By Steve Woychick

As you may have already found out, things are going to be a little different this year at Bishop Kelly. The man responsible for the majority of the changes is, no not the janitor, but the new dean of students Mr. Mike Fritz.

In an opening day speech, Fritz stated that this year as opposed to some other years the school would not be a country club. In his first month or so as dean, Fritz has shown that he was serious when he made that rash statement. He has already begun to crack down on 'the chew problem' and is taking a hard core approach to enforcement of other school rules, especially in the area of attendance. These drastic changes from the way the school has been run previously have come as a shock to many veteran students accustomed to the traditional way of life at BK.

One thing that has remained the same over the summer break is the accuracy of the clocks in each classroom. Synchronization of clocks has never been a trademark of Bishop Kelly High, but this year the situation seems to have reached an all time record. It is doubtful that any two clocks in the building give the same time of day at a given moment. What is more some classrooms now feature square holes in the walls with a tangled mess of wires sticking out where a clock once hung.

Since it is important that teachers and students get to the same class at the same time of day my proposal would be to either have all the clocks set to Mountain Bell time, or any other time for that matter, or to have them replaced by one centrally located sun dial. The second suggestion would eliminate all doubt about which clock is right and would probably prove to be more accurate.

Speaking of changes this year, returning students undoubtedly must be wondering what happened to that mint condition 1962 Dodge Dart station wagon that graced the presence of the infamous Bishop Kelly parking lot for over a year. Of course I am talking about the classic vehicle formerly owned by senior Mark Hopfenbeck and his brother Curt (BK '80). The Dart was destined to become a legend at BK. During its stay here it became a familiar sight as any of the permanent structures of the school, and big plans were in store for it this year. The Dart was regarded by many as the perfect object of the annual car bash, after which, rumor had it, it would be given to the school as the gift of the class of '81.

But that is all behind now as the car was towed away to a peaceful retirement at Barger Matson. It seems odd to pass the school now and not see the white station wagon parked in the front row of the parking lot. Mark Hopfenbeck drives another station wagon to school now and the legend of the '62 dart lives on only in the memories of those who admire classic automobiles.

## Adventurous Knights

By Molly Vaughan

A Bishop Kelly sophomore has gone into business on his own. "Iron Mike's" is the name of Mike Parsley's prosperous honey company. Last year Mike got 400 pounds of honey. This year he hopes to get at least 800 pounds out of the 29 hives that he harvests on his father's acreage. So when honey season rolls around this year you can be sure to hear Mike Parsley peddling his 100% pure honey throughout the halls of Bishop Kelly...senior Rose Marie Arrubarrena is following in her mother's footsteps. Rose Marie has been working as a seamstress at Alexander's Store for Men for about a year now. Her mother, Victoria, has worked at Alexander's for many years and encouraged Rose Marie to get into the business. Rose Marie hopes to become as talented as her mother, but she knows that it will take time. When asked if she enjoyed sewing with her mother for Alexander's Rose Marie replied, "I enjoy it very much. I realize that I'm gaining valuable experience in a work field that will have positions available when I finish school and get a job...another Bishop Kelly senior who has a job that will be helpful in her future career is Rose Daley. Rose is interested in the computer engineering field. After school she works at Accounting Systems, a company that produces computer software. The company's computer

terminal works out of General Electric's computer system. According to Daley General Electric has one of the best communication networks in this area and has access to just about everywhere except Russia. Daley is excited about her job because it's going to be very helpful in the years to come. She says, "It's a really good experience because I'm being exposed to computers. No matter what particular field I choose the computer will be a tool that I'll put to work..."some Bishop Kelly students that have several interests outside of school still excel academically. The following Bishop Kelly seniors were named National Merit Scholarship Semi-Finalists on Friday, September 5: Christine Bubb, Rosemary Daley, Laurel Eroiza, Mary Hegmann, Mark Hopfenbeck, and Lisa Munson. Besides having obvious academic skills Eroiza is the state A-2 champion in gymnastics. Hopfenbeck's interests outside of schoolwork include playing basketball and holding the position of senior class president. Bubb is student body vice-president and she is also a member of drillteam and the varsity volleyball team. Rosemary Daley is involved in several sports and is also national honor society president. Lisa Munson is active in Bishop Kelly's drama productions and Mary Hegmann is an active member of the rod and gun club. (See story on pg. 4)

## Activity Period Still Debated

By Molly Vaughan

Last year activity period was a time to attend club or class meetings, study, or just take a break. Each student would check in to his homeroom and then study or go to any meetings that he had.

This year after checking into homeroom all students must listen to the announcements before leaving their homerooms. On the average day it takes a couple of minutes for the announcements to come on and when they finally do they last approximately three to four minutes. After the announcements are finally done the students are free to attend meetings, etc.

This year student council has drawn up a schedule that all clubs and classes are supposed to plan their meetings by. Many of the clubs do not follow the schedule and the result is mass confusion during activity period.

The first period classes were being shortened by the announcements in the past years so that is why the announcements are now heard during activity period. I feel that the first period teaches, the students, and club officers would all enjoy activity period more if the announcements would come on at the very beginning of activity and be limited to the essential announcements. Also if the club meetings were only scheduled when they are supposed to be then activity period would not be a lot smoother for everyone. The schedule was drawn up for the clubs to follow because, due to the announcements, it is virtually impossible to attend more than one meeting a day.

Hopefully in the near future the announcements will be shortened and the schedule for meetings will be followed.

## Letters To The Editor

The Youthgrants Program of the National Endowment for the Humanities will offer over 100 cash awards across the nation this fall to young people, many of high school age, to pursue independent, out-of-the-classroom projects in the humanities. The deadline for submission of completed applications is November 15, 1980.

A slide/tape presentation and booklet on the history of segregation in Memphis, Tennessee, a collection of crafts and religious objects with accompanying text by Native American youth in New Mexico, and a booklet covering the entire history of a small Montana town founded in 1910 are some of the projects undertaken by high school age students with the help of a Youthgrant.

All projects, whether group or in-

dividual, must result in a concrete end-product, and must involve research in one or more areas of the humanities, which include history, folklore, ethnic studies, linguistics, and the history of art. Projects in the creative arts, sciences, and social reform are *not* eligible for the program, and scholarships are not offered.

If you are interested in the program, you may wish to talk to your counselor or social studies teacher and then write *before* October 15, 1980 to:

**THE "BLUE" TOUCHES BK** — The Air Force Band of Tacoma, Washington performed in concert at the Bishop Kelly Gymnasium on September 8th.

## "A Touch Of Blue" Plays BK

The Air Force Band, A Touch of Blue, from Tacoma, Washington was greeted warmly by the students of Bishop Kelly on Monday, September 8.

The Band played a variety of songs consisting of instrumental and vocal. One particular song, the vocalist asked two people to dance with him. He then proceeded to dance with them in front of the whole student body.

The Air Force Band was originally organized in New Jersey in 1941 according to Don Miller, publicity manager. The famous Glenn Miller originally started the first band. He began by recruiting different people to play.

The players have to pass a very strict audition to be in the band. "You really have to know what you're doing," said Miller. String instruments are rarely used in the band. The band plays mostly jazz music combined with a little light rock.

The band members do not have any other military duties. Their job in the Air Force is to play in the band.

The Air Force Band performs for a variety of high schools and colleges during the school months. During the summer months, they perform for fairs or for public relations purposes.

## Six Seniors Attend State

Each year, representatives are chosen from every high school in Idaho to attend Boy's and Girl's State. From Bishop Kelly six students were chosen, three girls and three boys. They were selected over many other students based on their activities and school work. It was a tough decision and the teachers have the final vote.

Those girls that were nominated were seniors, Kathryn Brennan, Kathleen Pape, and Mary Anne Carpenter. Kathryn was appointed the County Commissioner during their week there, while Kathleen was elected Supreme Court Justice. Mary Anne also held an office. She

was elected Clerk of The House. "It was really neat," stated Mary Anne, "I had a lot of fun."

The seniors that went to Boy's State were Mark Hopfenbeck, John Fitzgerald, and Steve Woychick. They too held offices and many other jobs. John also passed his Bar Exams, which was a great achievement for him. According to the boys, their stay was an enjoyable one.

Boy's and Girl's State was held for six days last summer at NHS. All of the participants gathered to take part in a mock government. They learned all of the do's and don'ts of politics, and they got the feel of being a real politician.

Ryuta Shinozaki

Gaileen Fortin

## Students Make Foreign Exchange

While many Bishop Kelly students traveled with their families this summer, one senior spent her summer half way across the earth from her family.

Gaileen Fortin spent two months as a summer exchange student in Kenya, East Africa. Gaileen lived with the Juma family who have seven children and are members of the Luo tribe. Only one of the seven Juma children, a sixteen year old girl, speaks English so Gaileen learned the Luo tribal language

through her.

When asked what she thought the biggest difference between America and East Africa was, Gaileen replied, "Everything! The most difficult thing to adjust to was the lack of luxuries that we take for granted in the U.S. such as running water and electricity."

Gaileen said, "I really enjoyed myself, I learned a lot and definitely experienced a cultural shock."

A Japanese student is also receiving a learning experience at Bishop Kelly.

Sophomore Ryuta Shinozaki is a foreign exchange student from Japan and he notices big differences

between not only Bishop Kelly and his old school, but also the United States and his home country. Stated

Ryuta, "American people are much more friendly. I'm very happy that everybody says hello to me. I appreciate that they are such a nice people and kind to me."

Bishop Kelly is quite different from Ryuta's school in Japan. "The private schools in Japan have a big test before you can get in the school. About 2,000 to 3,000 people try out for the school, but only 10% of them make it," stated Ryuta. "Almost all the students go to summer school. Not because they flunked the class, but just so they would get smarter. There's school on a Saturday too, for half a day."

## Roving Reporter

### WHAT DO YOU THINK OF THE NEW CHEWING RULE?

**David Grapp, senior:** I miss the pinch between my cheek and gum.

**Chris Spute, junior:** The Chewing rule? I think it should be outlawed.

**Karen Little, freshman:** I don't know, I guess it's o.k.

**Scott Lawerne, senior:** I quit because the girls stopped coming to me.

**Steve Hippler, freshman:** I think it's stupid.

**Leah Butler, sophomore:** I don't care. People can chew if they want to. It doesn't bother me.

**Tom Heffner, junior:** I think it's stupid.

**Rich Arte, sophomore:** All right.

## Semi-Finalists Chosen For National Merit Scholarships

Six students of Bishop Kelly have been chosen as semi-finalists in the National Merit Scholarship Program. These six, including Mark Hopfenbeck, Christine Bubb, Rose Daley, Mary Hegmann, Lisa Munson and Laurel Erdoiza, are among 15,000 other semi-finalists in the United States. Of these 15,000 about 14,000 will go on to the final competition. Out of the 14,000, 4,500 will receive scholarships.

These six students, along with ninety-seven other Kelly students took the SAT and PSAT tests early last fall. There were originally eight pre-semi-finalists. The finalists will be announced next spring.

The semi-finalists are chosen according to a number of things. First of all, the student is required to submit a list of his/her courses and their cumulative G.P.A. for the past three years. Next, a written recommendation from the principal or the school must accompany the students' transcript. Semi-finalists are determined through scores they achieved on the PSAT tests. The SAT tests must correlate with the PSAT tests in order for the student to be a semi-finalist.

The National Merit Scholarship is the most prestigious scholarship open to every student in the United States today. Although the scholarship is only worth 1500 dollars, it is truly an honor to be chosen as a semi-finalist.

## Four Varsity Cheerleaders Attend Portland Clinic

This summer the Bishop Kelly Varsity Cheerleaders, seniors Mary Florence and Ann Brilz, and juniors Camille Cope and Teresa "Tweet" Harrington, attended the National Cheerleader's Association Clinic at Lewis and Clark College in Portland, Oregon, last June 27.

The BK cheerleaders won two spirit sticks, several blue ribbons, and placed in the top three of all the squads attending the clinic.

According to head cheerleader senior Mary Florence, the girls had a busy schedule; up at 7 for breakfast, with sessions starting at 8:30. They learned new cheers, had time for practice, and then were

evaluated on their progress by the coaches.

The girls felt the clinic, which was coached by cheerleaders from northwestern colleges, was a worthwhile investment in time and energy, as they learned many new cheers, and met many new friends, according to Mary.

## Freshmen Cheerleaders Chosen By SC

Wednesday, September 12th, nineteen brave freshmen girls tried out for cheerleader. All of the girls were good so the judges had a hard time deciding, according to Mary Florence, head varsity cheerleader.

Four girls, including one alternate, were chosen. Those girls were head cheerleader Paula Eaton, Gina Ripley, and Pauline Shalz. Kim Huston was chosen as the alternate. Pauline Shalz said that in her opinion the duties of a cheerleader are to support the players, and to cheer them on to victory.

Although the actual tryouts were held on Wednesday, the girls were busy on Monday and Tuesday as well. On Monday, the other cheerleaders held a clinic in which they helped the girls with their cheers. On Tuesday, the cheerleaders held a 'mini' tryout. This was designed for the girls to get used to doing their cheers in front of audiences.

The judges were teachers, varsity cheerleaders, student council members, and presidents of all organizations. The girls were voted on their appearance, their voice projection, and their enthusiasm or spirit. All of the girls have a great amount of spirit, and will help the Pep Club cheer at games.

**THE FINISH**—Freshman Kim Huston finishes fifth in a cross country meet at Ann Morrison park. She is one of the prominent runners on the team.

## Gymnasts Look At Routine Change

The gymnastics routine will look a little different for the spectators who come out and watch this year. Not only are the routines new and unique, but the faces have also changed over the summer.

Only a few returning gymnasts like Laurel Erdoiza, Katie Callanan, Ann Brilz, and Marcie Sheppard will be seen. Six or seven freshmen have come out for the team which Miss Janice Taylor, the gymnastics coach, says is excellent for the start of the new year.

A few changes have been made in the routines themselves. The compulsory routines are no longer re-

quired. Optional routines in which the girls make up their own steps are now taking their place. Thus the gymnasts are fewer and more skilled. The members of private gymnastic clubs will be competing in a division of their own.

This year there will be seven schools competing in the meets. Times, dates and places are as follows: September 23, at Boise High School Gymnasium; October 7 and 14 at Bishop Kelly Gymnasium; and the State Championship meet November 8 which will be an all day affair at Meridian High School Gymnasium.

## Curtis Leads Tennis Team

Mr. Curtis has started a fall tennis club at Bishop Kelly this year. The club practices twice a week at Winstead Park.

In 1978, the Board of Control decided to limit tennis to a spring season which starts in March and ends in late May is the reason the tennis "club" isn't called a team. It is an unofficial team.

Mr. Curtis said "the more enthusiasm put out by the team members, the harder he will work to

arrange matches with other 'clubs.' Later, if more people turn out for the club he plans to increase the number of meetings from two to three a week."

Mr. Curtis said he "would like anyone interested in learning how to play tennis, or anyone who already knows how but needs practice, to come out and play because it is not competitive. It is a fun way to learn. Also, anyone interested in spring tennis can use fall tennis as a way to sharpen his or her skills."

# Sports

## Fr. Rodenspiel Satisfied With Cross Country Team

Today the Bishop Kelly cross country team, coached by Fr. Rodenspiel, will be running in the Boise Invitational, hosted by Borah High School. There will be four teams competing, Borah, Capital, Boise and BK. The competition will begin at 3:00 p.m., Ann Morrison Park.

Fr. Rodenspiel has high hopes for the team this year. He hopes the boys' team will win the district championship October 24, at Weiser. "It's always been us (BK), Weiser and Vallievue. This year I feel we'll be right there." Though it is still early in the season, Fr. Rodenspiel feels the girls' team will also do well.

At first glance, Fr. Rodenspiel may seem overly optimistic. This year's team numbers only 16, ten boys and six girls, compared to last year's team of 22 runners. Only five members are returning, seniors Dan Allumbaugh and David Grapp, junior Mike Russell, who placed 12th in state championship last year, and sophomores Jim Moloney and Angela Quinowski.

However, seventh and eight place finishes by Russell and Allumbaugh and a strong finish by sophomore Steve Stamos gave the Knights second place in their first meet at Ann Morrison Park. The team finished behind Borah and defeated Vallievue and Mountain Home. Though the girls did not have enough runners to complete a team (five are required), three of them finished in the top ten. The Huston sisters, freshman Kim and sophomore Michelle, placed fifth and ninth respectively, and sophomore Shellyn Sarni placed tenth.

Fr. Rodenspiel's hopes may not be so far fetched. He said, "Some people are not experienced now so there's a lot of room for improvement. We also have a good attitude, a lot of get up and go."

**THE KICKOFF**—Senior Tim Griffis is practicing punts in order to be prepared for tonight's game against Middleton High School.

## Knights to Face Middleton Tonight

By Steve Woychick

The Bishop Kelly Knights will travel to Middleton High School tonight to take on the Vikings for their second SRV conference game on the 1980 season.

The Knights opened the season with three non-league games against A-1 schools. The first game the Knights went to Minico where they scored first, but were down 14-10 at the half. The Knights dropped the contest 33-10. The following week the Knights again played on the road. The Burley Bobcats were defeated 17-0 by a much improved Kelly team. Junior Tom Heffner caught a touchdown pass in that game and sophomore Jim Pape scored a touchdown and added a field goal to give the Knights their first victory of the year.

September 12th BK faced a tough Caldwell Cougar team in the Knights' home opener. Caldwell was ranked number five among Idaho A-1 schools by the Idaho Statesman preseason poll. The game was played under poor weather conditions, a steady rain fell throughout the game. The Knights were down 13-7 at the half, but came out with the momentum on their side for the start of the third quarter. BK quick-

ly scored a touchdown and added the extra point to go ahead 14-13. Caldwell continued to play a tough game despite the momentum Kelly had gathered and eventually came out with a 25-14 victory.

The next week the Knights faced the Vallivue falcons in their first conference game of the season. Vallivue won the State football championship last season and was picked by the Statesman to win the SRV this year. At the time of this printing, however, no score was yet available for the Knights' second home game of the year. Middleton, as of this printing had a 3-0 record. The Vikings opened the season with a narrow victory over Capital High School's JV team. The following week they beat Homedale 34-14, and September 12th they took their first conference victory over Payette by a score of 28-8.

After tonight's game the Knights will have four more games, all of them against SRV opponents before the play-offs begin. October 3rd it's Emmett at Home, followed by a trip to Weiser. The Knights then return to face Payette in their homecoming game which will be followed by a road trip to Kuna for the final regular season game of the season.

**BUSY WORKING** — Sophomore Ron Roark repairs a car at his partially owned body shop. Ron's father started the shop but the work was too much for one person.

## Roark Runs Shop On Side

By Dawn Ramos

Five years ago, Ron Roark became a partial owner of an auto shop known as the Cherry It, located in Meridian on Linder Road.

His father started out as a designer at the Ford Motor Company in San Jose. The business in San Jose was very busy and became too much for Ron's father. He came to Boise and started his own business, which included Ron as a partner.

Ron's job is to give estimates on all body work and paint jobs performed at their shop. He also does the finishing touches in preparing a car for painting and does the painting himself. Ron says it is next to impossible to keep up his homework

and work at the shop during the school year. He is managing much better now than he used to. He is planning to work in the Cherry It through high school, and when he attends college, he would like to get a place of his own to do business in.

In the summer, Ron gets two months for vacations and relaxation. One month out of the summer, Ron works full time. Ron also spends some time buying necessary parts for the shop. He purchases most of the parts in Caldwell and in Boise.

The busiest time of year for the Cherry It is in the winter months. If you are interested in a bright new paint job or a little body work, talk to sophomore Ron Roark.

## Lettermen Expect Members

Bishop Kelly Letterman's club President senior Tim Griffis is looking forward to a better year with more memberships than preceding years. He plans on working closely with his Vice President, Kerry McDaid. The club is planning to make homecoming a better week by having a tug-a-war and car bash, which proved very successful in the last few years. They will also be sponsoring the 2nd annual St. Patrick's Day Dance with C.B. Johnson as Disc Jockey. Also being planned are assemblies, decorating lockers for drill team and providing lunch boxes for the girls' basketball team. There will also be some concessions.

Tim Griffis said, "A goal for this club would be to have a good time, promote pride — pride to wear a jacket and say you are from Kelly."

Sergeant of Arms Mark Goicoechea will help promote membership this year and plans on a good showing.

To be a member in the BK Letterman's club you must letter in any varsity sport. After lettering, it is automatic membership. Griffis added that the member should become more active in the club and it will be a more dominant club of the school. The club is a service organization connected with promotion of athletics.

The money was used during the summer for the football program, helmets were desperately needed and the money is gradually being reimbursed.

In conclusion, Tim Griffis added that there will be a meeting within the month to set up an executive committee. However, no specific date has been set.

## New Coach Runs Soccer

By Wendy Kochaver

Quite a few things have changed for the soccer team this year. The biggest major change is the new coach they have acquired. Mr. Tom Hopkins, a native of Idaho but raised part of his life in Mexico, has come from coaching Optimist Youth Soccer to coaching the Bishop Kelly team.

Another new thing that has changed since last year is the team has decided to join the Optimist Youth Soccer Organization. This means better playing conditions for the members, qualified officials to referee the games, and new uniforms for the entire team.

Mr. Hopkins has played soccer almost all of his life and has ac-

cumulated many awards to show for it. He has also been voted Defensive Player of the Year for Capital High School where their team took the championship in the state playoffs.

Although the players this year aren't as skilled and knowledgeable as past players, Mr. Hopkins feels that when the basics are learned and they have had time to experience game playing, the team could make it to the championship playoffs.

Out of the nineteen players signed up for the team, only thirteen have showed up and by the end of the week, only the dedicated players will show up.

The soccer games are scheduled for Friday nights at the Fort Boise field. Dates and times are still being decided.

## Challenging Season Ahead For BK Volleyball Team

Thursday, September 4, Bishop Kelly's volleyball team opened its season with a game against Boise High School. The team's many hard hours of practice proved worthwhile when they bounced back from a first game 15-1 loss, to fall to an A-1 school by only a three point margin. The final score was 15-12.

The varsity team, which is coached by Ms. Eileen Loughney, is

made up of 11 girls, three of which are returning players, seniors Debbie Diaz and Pam Richardson, and junior Marge Oliver. They will be leading the team through what may prove to be a challenging season.

First year coach, Ms. Loughney, has one goal in mind and that is "to win."

# Krewers Have A Baby

On July 16, 1980, at 6:45, Mr. and Mrs. Krewer became the proud parents of a baby girl, Claire Katherine Krewer. Claire, who was a tiny, 3.4 pound baby, remained at the hospital for the first month of her life. Claire is now at home with her proud, happy parents and recently celebrated her two month birthday.

The baby is named after the Franciscan saint, Claire, who was a friend of St. Francis of Assissi. The spelling of the baby's middle name, Katherine, is German.

Claire Katherine has large brown eyes, and lots of dark brown hair. said that she is available to play the baby Jesus at the Christmas. Although she is a girl, her father

## Frosh Dance Success

The annual "Welcome Freshman Dance" was on Saturday, September 20, in the gym at St. Mary's at 8:00 p.m. The music consisted of records and was played on a stereo system at the gym. Although the dance is billed "Welcome Freshmen" any student is encouraged to attend
